

Our strongest commitment

Volvo Trucks on traffic safety

Lennart Pilskog Director Public Affairs

Learning from accidents. Since 1969

We investigate

- Accident Research Team on standby
- Unique knowledge gathered
- Active international cooperation

Causes of accidents

Any one or a combination of these categories:

Road environment

Driver-related

Vehicle-related

Main factors affecting safety

- Rest before driving to stay alert
- No alcohol in combination with driving
- Follow the speed limits
- Use the seat belt

1/3 of fatal accidents are alcohol-related

- Over 40,000 people are killed in the EU annually.

  That's like a major air crash every day!

- Every third or fourth fatal accident

  can be linked to alcohol consumption.

- At least 10,000 people are killed in alcohol-related road accidents.

- Trucks are not over-represented, but accidents involving trucks are often severe

Volvo Alcolock

A tool against road fatalities

Volvo Trucks
Corporate Communication
2010-05-10

Volvo has accepted the challenge

2002:
Alcohol interlock available as an accessory

2005:
Factory-fitted interlock

2006:
Alcohol testers on ferries

2007:
Third generation introduced

2008:
Commercial introduction in several countries

2010:

Continued ETSC safe & sober campaign

Volvo Alcolock

- A breath alcohol tester (BrAC)
- Integrated into the vehicle's systems
- Prevents an intoxicated person from driving
- The vehicle can only be started after an approved alcotest result
- Electro-chemical, fuel cell
  - Alcohol-specific and very accurate
  - Factory default setting 0,2 per mille
- The factory fitted alcolock is ADR-adapted

How to use the alcohol interlock

- The driver must blow for 5 seconds to start the vehicle
- No need to test again after shorter stops
- No retests while driving
- Each test is logged and registered in the device
- Programmable for the individual needs of large operations

Service

- Calibration every 12 months
- Service code for override function
- Volvo Action Service available

The responsibility of the employer

- Inform and involve
  - Properly introduced alcohol interlocks increase awareness of traffic safety and reduce accidents
- When someone tests positive
  - You will need an agreed plan to deal with the situation
  - Consider a support system for the employee, regular offenders need appropriate help
  - Reward honesty

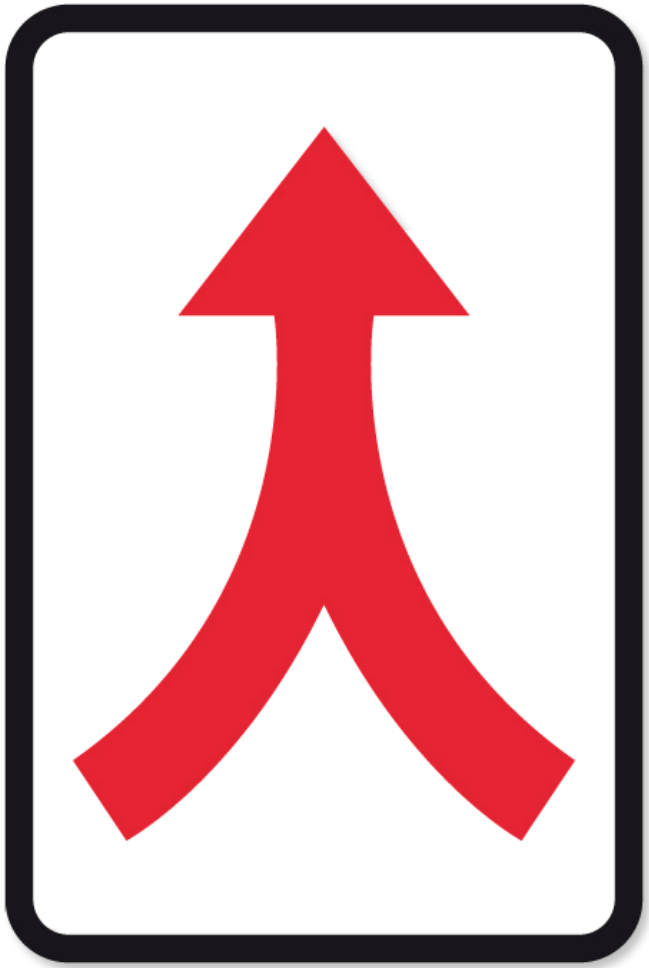

Future trends

- Increased interest, awareness and demand
- Testing for other drugs
- Harmonised technical standards and legislation

Results come from joint efforts

- Drowsiness – put focus on the issue
- Alcohol – change of attitude
- Speed – intensify monitoring
- Seat belt – 100% usage

Thank you
