« Identify, Evaluate and Prevent Occupational road risks »

International PRAISE Seminar
Wednesday 7th March 2012, 8h30 - 13:00

Auditorium - Fédération française des sociétés d'assurances
26, boulevard Haussmann - 75009 Paris

In 2009 ETSC launched a project Preventing Road Accidents and Injuries for the Safety of Employees (PRAISE) to increase road safety in the work context. The project is co-funded by the European Commission, the Fundaciòn MAPFRE, the German Road Safety Council (DVR) and the Swiss Council for Accident Prevention (bfu). It aims to "praise" best practices in order to help employers secure high road safety standards for their employees. In the framework of this campaign, ETSC is organising a series of seminars in selected Member States bringing together companies, fleet safety managers, government, and road safety experts.

In collaboration with the French Road Safety Association (Association Prévention Routière) and the National Health Insurance Fund for Salaried Workers (CNAMTS), the seminar will be held on Wednesday, March 7th, 2012 in Paris.

On the agenda will be measures to improve work related road safety in France and in other EU Member States. Translation (French/English) will also be provided. To register please send an email to Ilyas.Daoud@etsc.eu before Friday 2nd March.

Agenda

08h30 **Registration**

09h00 **Introduction:** François Pierson, Président of Association Prévention Routière
