**International PRAISE seminar
ISO 39001 RTSMS
Tuesday 1st October 2013, 09:00- 13:00**

SH VALENCIA PALACE
Paseo de la Alameda, 32,
46023 Valencia, Spain

In 2009 ETSC launched a new project Preventing Road Accidents and Injuries for the Safety of Employees (PRAISE) to increase road safety in the work context. The project was co-funded by the European Commission, Fundación MAPFRE, the German Road Safety Council (DVR) and the Swiss Council for Accident Prevention (bfu). It aimed to “praise” best practices in order to help employers secure high road safety standards for their employees.

In the framework of this campaign, ETSC is organising a series of seminars in selected Member States bringing together companies, fleet safety managers, government, and road safety experts.

Building on the context of the newly adopted ISO 39001 “Road Traffic Safety Management” norm, ETSC is organising a European seminar analysing its implementation in the work context. In co-operation with the Fundación MAPFRE, the seminar will be held on Tuesday 1st October in Valencia, Spain.

Translation (Spanish, English) will be provided. Attendance is free of charge but seats are limited. To register please [click here](#) before Friday 27th September.
