

PIN Flash 21 - Background tables

	Corresponding Fig. in the Flash	
Table 1a	Fig. 1a	Road deaths among young people (15-30) and average annual percentage change between 2001 and 2010
Table 1b	Fig. 1b	Road mortality of young people (15-30) and average annual percentage change in their road mortality between 2001 and 2010
Table 2	Fig. 2	Reduction in road deaths since 1991 in the EU15 (except Germany) among people aged 15-17, 18-24, 25-30, among males aged 15 to 30 and females aged 15-30 with reduction in total road deaths for comparison.
Table 3	Fig. 3	Amount by which the average annual percentage reduction in mortality among young people (15-30) exceeds the average annual percentage reduction for the rest of the population over the period 2001-2010.
Table 4	Fig. 4	Cumulative reduction to 2010 in the number of road deaths among young people compared with 2001 and estimated valuation of benefit to society at 2009 prices.
Table 5		Further cumulative reduction from 2010 in road deaths among young people and valuation of benefit to society at 2009 prices, assuming that young people deaths are reduced at a steady annual percentage rate to reach a 50% reduction in the number of young people killed on the road by 2020.
Table 6	Fig. 6	Young people deaths per million young inhabitants (with road deaths per million inhabitants at all other ages for comparison)
Table 7	Fig. 7	Young people's road mortality per million young people, in total and by gender, ranked by the mortality of both sexes.
Table 8a	Fig. 8a	Percentage share of different types of road user, among male road deaths for the 15-30 age group.
Table 8b	Fig. 8b	Percentage share of different types of road user, among female road deaths for the 15-30 age group.
Table 9	Fig. 9	Road deaths among those aged 15 to 30 as a percentage of deaths from all causes in the same age group in last three years available.
Table 10	Fig. 10	Road deaths in the EU, by gender and age group as a percentage of deaths from all causes for that particular age group and gender in the last three years available.
Table 11	Fig. 11	Road deaths in collisions involving at least one young driver or rider (in latest three years available and in 2001) as a percentage of the total number of road deaths.
Table 12	Fig. 12	Road deaths following collisions involving at least one car or motorcycle driven by a young person ranked by the share of car users (drivers or passengers) killed in those collisions.
