INVITATION TO LAUNCH EVENT
Country Ranking on Vehicle Passive Safety

European Parliament, Paul Henri Spaak building, Room 4B001,
14 April 2009, 11h00 – 12h00

Dirk Sterckx, MEP, the European New Car Assessment Programme (Euro NCAP) and ETSC have the pleasure to invite you to the launch of the EU Country Vehicle Safety Ranking on 14 April at the European Parliament. This 12th ranking drawn up in the framework of the Road Safety Performance Index (PIN) looks at passive safety of new passenger cars sold in 2008 in the 30 countries covered by PIN.

Constantly improving vehicle passive safety has helped to prevent at least 10,600 car occupant deaths on EU roads over the past 10 years. Yet European citizens do not benefit equally from these improvements, and huge differences exist between countries in terms of market penetration of safe cars. What is also discouraging is that while newly cars sold in the EU reach a high level of car occupant protection, they still fail to offer sufficient protection to pedestrians and other vulnerable road users.

Current concerns over climate change have led EU Member States to adopt measures to promote the purchase of environmental-friendly cars. Why is a similar approach to promote safe cars not being taken? What are the barriers for promoting safer cars? What role do government bodies, local authorities and companies have in supporting the market for safe cars?

The speakers will address these and other issues and brief you on the individual countries’ performance in promoting safer cars’ sales, effective measures and future policy objectives. The speakers’ list includes:

Dirk Sterckx, MEP, Ambassador for the PIN Programme, Belgium
Anders Lie, Vehicle and Traffic Safety Expert, Swedish Road Administration (SRA)
Michiel Van Ratingen, Secretary General, Euro NCAP
Graziella Jost, PIN Programme Manager, ETSC
