Work Related Road Safety
Annual PRAISE Brunch
6th of May 2010, 9.00-13.00

Radisson BLU EU Hotel
35 rue d'Idalie, Brussels

ETSC's project Preventing Road Accidents and Injuries for the Safety of Employees (PRAISE) aims to increase road safety in the work context. The project is co-funded by the European Commission, the German Road Safety Council, the Swiss Council for Accident Prevention (bfu) and the MAPFRE Foundation. It aims to "praise" best practices in order to help employers secure high road safety standards for their employees. ETSC invites you to its first annual Brunch Seminar in Brussels bringing together companies, fleet safety managers, EU institutions, government representatives and road safety experts. It aims to discuss findings of ETSC's first three Thematic Reports and invite representatives from the EU institutions to debate work related road safety. The first winner of ETSC PRAISE award will also be announced. This Brunch is a European follow up to the first International Conference on Road Safety at Work held in Washington DC in February 2009 organised by U.S. National Institute for Occupational Safety and Health and its partners. On the agenda will be measures to improve fleet safety in the EU Member States. To register please send an email to ellen.townsend@etsc.eu
