### Feedback

-Employees

Positive feedback all around
Negative feedback for technical problems

-Customers

- -Positive feedback
- -Specially for school transports

#### **Alkolock pros**

- Wireless and Wired devices
  - -Winnig points in public tendering
  - -Quality of service
  - -Safety & insurance
  - -Ease of use
  - -Positive publicity

#### -Wired

- heating time, cold conditions
- stays in the vehicle all times
- No batteries

#### -Wireless

-Second key to the vehicle -Service and calibration simple -No heating time if used as a key -Foxguard: long batterylife

-Foxguard & STD Systems alcolock remote result reporting via SMS

dreamröme.com

### **Alkolock cons**

- Wireless and Wired devices
  - -Logistics
  - -Reporting, storing & analyzing results
  - -Servicenetwork
  - -Costs
  - -Possible malfunction in extreme heat

#### -Wired

- Heating time in cold conditions

-Wireless

- -Possibility of losing hand-unit
- -Heating time in cold conditions

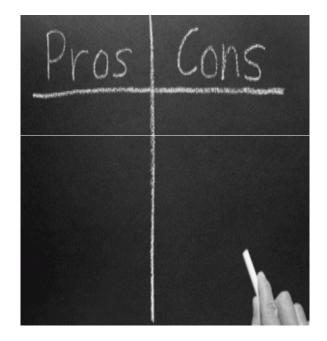

-Technical difficulties mainly solved

- -Remaining challenges mainly logistic - Monitoring & analyzing devicebased data
  - installation, calibration and service
- Helps increase business
- -Quality increases
- -Does not effect insurance costs (Finland)
