

Our strongest commitment
Volvo Trucks on traffic safety
Lennart Pilskog Director Public Affairs

Learning from accidents. Since 1969

We investigate

- Accident Research Team on standby
- Unique knowledge gathered
- Active international cooperation

In the hands of the human factor

10%

Vehicle-related

30%

Road environment

90%

Driver-related

Four areas, one focus

- Alertness
- Alcohol
- Speed
- Seat belt use

1/3 of fatal accidents are alcohol-related

- Over 40,000 people are killed in the EU annually.
That's like a major air crash every day!
- Every third or fourth fatal accident can be linked to alcohol consumption.
- At least 10,000 people are killed in alcohol-related road accidents.
- Trucks are not over-represented, but accidents involving trucks are often severe

Volvo Alcolock

A tool against road fatalities

Volvo has accepted the challenge

2002:

Alcohol interlock available
as an accessory

2005:

Factory-fitted interlock

2006:

Alcohol testers on ferries

2007:

Third generation introduced

2008:

Commercial introduction in several
countries

2012:

Continued ETSC safe & sober campaign

Volvo Alcolock

- A breath alcohol tester (BrAC)
- Integrated into the vehicle's systems
- Prevents an intoxicated person from driving
- The vehicle can only be started after an approved alcotest result
- Electro-chemical, fuel cell
 - Alcohol-specific and very accurate
 - Factory default setting 0,2 per mille
- The factory fitted alcolock is ADR-adapted

How to use the alcohol interlock

- The driver must blow for 5 seconds to start the vehicle
- No need to test again after shorter stops
- No retests while driving
- Each test is logged and registered in the device
- Programmable for the individual needs of large operations

Service

- Calibration every 12 months
- Service code for override function
- Volvo Action Service available

Future trends

- Increased interest, awareness and demand
- Testing for other drugs
- Harmonised technical standards and legislation

Results come from joint efforts

- Drowsiness – put focus on the issue
- Alcohol – change of attitude
- Speed – intensify monitoring
- Seat belt – 100% usage

Thank you
