

International PRAISE Seminar

*Identify, evaluate and prevent
occupational road risks*

18 October 2012, Lisbon (Portugal)

Mr Joël VALMAIN

*Adviser for European and International Affairs
to the Interministerial Delegate for Road Safety*

Road risk at work

- Road risk is really an occupational risk,
- In France road accidents are the first cause of fatalities at work = around 50% of fatalities (travels from home to the work place are also taken into account);
- 10% of the road fatalities every year, i.e. 400 people killed,
- 5,300,000 work days lost/year – like a company of 25,000 employees out of work every year;
- Actions developed together with employers and the national social insurance system;
- Social obligations of the employers regarding the application of Directive 89/391 → **signature of commitments.**

**SÉCURITÉ ROUTIÈRE
TOUS RESPONSABLES**

The road safety charter

- Deals with customers and employees safety;
- Prevents the use of individual vehicles: missions, meetings and travels from home to workplace;
- Supports road safety campaigns;
- Sets up road safety awareness and training programmes like eco-driving, choice of the surest vehicles (fleet management);
- Prevents the use of mobile phone while driving: management of the communication within the company;
- Shares its views with other companies which are customers;
- Duration of the charter = 4years + follow-up Committee;
- Signature by Road Safety authorities, social insurance and the CEO.
