Drink Driving in Italy: Towards Zero Tolerance, 3 April 2014

Spazio Europa, European Parliament Information Office and European Commission Representation in Italy, Via IV Novembre 149, Rome

The ANIA Foundation for Road Safety and the European Transport Safety Council are co-organising the first national drink driving event of the SMART (Sober Mobility Across Road Transport) project, addressing the main issues related to alcohol and driving.

The debate will be an opportunity to gather EU representatives, national stakeholders and decision makers together with national ETSC member organisations. Drink driving issues both at national and EU level will be in the spotlight to raise awareness of the most effective measures to reduce the number of alcohol-related road deaths.

Simultaneous Italian/English interpretation will be provided. Register online at the ETSC website. For further information, contact francesca.podda@etsc.eu.

14:30-15:00	**Arrival and registration**
15:00-15:30	**Introductory Speeches** - **Vittorio Verdone,** Vice-President of ANIA Foundation - **Antonio Avenoso,** ETSC Executive Director
